

BE THEIR HERO

Your support of Hope & Heroes is critical. We fund a full 40% of the budget of the Division of Pediatric Hematology, Oncology & Stem Cell Transplantation at Columbia University Irving Medical Center. Our funding helps Columbia's scientists & physicians pursue innovative research more quickly and start making a difference for children faster. But this is only possible with support of people just like you.

The power of our collective community brings together patient families, doctors, funders, and volunteers to fight childhood cancer and blood disorders. We invite you to join with us in making a difference:

Donate to the cause.

Every dollar you give to Hope & Heroes will contribute directly to the research, treatment, and care of pediatric cancer patients in the New York tri-state area.

Spread the word.

Follow Hope & Heroes on social media, share updates and use our hashtag – #HopeandHeroes. Connect us to people in your network by hosting an event. For more ways to get involved, email contact@hopeandheroes.org or call 212.305.1420.

Support our events.

Every year, Hope & Heroes hold events to involve the community, increase awareness, and raise crucial funds. Sponsorships of these events are a great way to create a positive image for your business and make a real difference in the lives of children in treatment for cancer and blood disorders at Columbia. For more information about sponsorship opportunities at the annual walk, dinner, golf event, and luncheon, visit hopeandheroes.org.
